First impression: when you open 1000 Artists' Books, there are many exciting, inspiring books, many of them are unconventional in some way. In most cases you see the cover and at least one interior view, which I find important. The authors have done a great job in choosing a variety of exciting, usual artists' books. Be sure to use the "look inside," it has a generous number of pages. I am delighted to have several of my books included in this book. 1000 Artists' Books is divided into four chapters: 1. Codex books, (books with pages joined to make a spine); 2. Accordion and fold-able books (books with multiple-fold pages); 3. Single sheet books (stacks of pages, scrolls); 4. Sculptural books (books made from objects and objects made into books). Chapters 1, 2 and 4 are each roughly 30% of the book. Chapter 3 is about 60 photos. In the back is an image directory that lists the title, materials, etc. for each book. There is also an artist directory, listing urls and email addresses. Some people have said it is a little awkward to flip between the photos and the image directory. I put a book mark in the image directory to make this easier. 0 of 0 people found the following review helpful. Beautiful By 22 Wonderful  
The photographs are large enough to enjoy details. This is my Sunday morning with coffee and nobody is home book. As a book artist, I spend hours getting ideas - a twist on this or that. The book is organized according to structure type, for example, single sheet books or accordion style. I'm surprised by how many of the book artists I know in this volume. These are interesting and accessible artists. This book

is top shelf favorite! 10 of 11 people found the following review helpful. 1000 Books, So Little Time By Alice Simpson This book, while containing terrific images of Artist Books, is not well organized. There is no context to the books. None of the books shown are titled or described on the pages upon which they appear. By the time you've looked at all the books, if you still have the time and energy, the titles and brief descriptions can be found, but not easily, in the back of the book. You will have to find the page on which the book appears, remember it and then look it up, not by artist's name, but by its title. Too much work. When I look at a book of this type, I want to know immediately what the book is about, not simply the name of the artist. "500 Handmade Books" (Lark) does it best. That said, it's great to see Artist Books celebrated and know that there are wonderful books being made everywhere.

The book is a timeless art form, one that is as alive today as ever before, and artists continue to explore and explode the boundaries of what a book is and can be. In this beautiful collection, you will experience close-up various aspects of hand-crafted books: covers, bindings, scrolls, folded and origami structures and books made from found objects. You will find richly illustrated and calligraphed pages as well as books created from a variety of printed processes. Ingenuity and creativity abounds in this carefully curated collection of both historically important and modern works.

About the Author Sandra Salamony is a professional book designer. She has authored, coauthored, and curated several books on artisan topics. She lives in Traverse City, Michigan.
