It's beautiful and you can see exactly how to make the design. Great idea book with lot of stitch combinations. If you've done any embroidery or crazy quilt stitches, this book would be very helpful.1 of 1 people found the following review helpful. Five StarsBy Pam KartakLove this book

Hundreds of stitch combinations for hand stitching and crazy quilts. Full-color diagrams with grids make it easy to keep stitches even. Useful in all types of embellishment, use the pattern as illustrated or as inspiration to create your own. The motif section includes hearts, flowers, and more to expand individual stitches into larger patterns.
