Inspiration from 500 beautiful clay bowlsBy MarlyI'm a clay artist who does hand building...My teacher brought in this book to share with ourpottery class. I and the rest of the class were simply blown away by the originality and brilliance of these clay artists. We spent half the class passing the book around and saying to one anothr "how about THIS one?"None of us wanted to put the book down and get back to working on our own pieces.The book is quite reasonable in price and I was so captivated by these beautiful photographs that I went ahead and bought the the other two books in the series which are specific to animals and teapots...The photographs on each page are simply spectacular...memorable....something I wouldn't directly copy in my own work, but much of it is just inspirational...and informative. Description of how the piece was fired...the method for it's execution (whether hand or wheel built). These books are a collection of the most original works I've ever seen. Although I don't build animals of out clay, I'm as thrilled to own each book from this series as I am"500 Bowls".0 of 0 people found the following review helpful. Five StarsBy Peter B.Item as described.1 of 1 people found the following review helpful. Beautiful.By CustomerSo inspiring! I look at this and need to run and throw some bowls.

I throw some bowls, and I need to run back and look at these some more. Beautiful.

Five hundred inspiring variations on the simple, functional bowl will fire any potter's imagination. Displayed on each page are bowls that reinvent and reinterpret the form, and use techniques from across the globe and through the centuries. More importantly, every piece, such as Kate Maury's wheel-thrown porcelain, Stephen F. Fabrico's slab-built bowl with handles, and Ruchika Madan's stoneware Fruit Bowl, testifies to the artist's boundless inventiveness. Captions give each bowl's size, with details on its material and glazes.
