Diana Blayne Diana Palmer : Denim and Lace before purchasing it in order to gage whether or not it would be worth my time, and all praised Denim and Lace:

3 of 3 people found the following review helpful. They need counselingBy RegencyMissThey need counseling. If you like a harsh hero who continually puts down the heroine and a heroine who loves him no matter what then this book is for you. It is not one I will be rereading.I generally like Palmers books and have shelves of them to prove it. I have noticed that the characters have generally become more balanced over the years though she still likes the repressed macho cowboy type. Her stories usually show the redeeming power of love. Some times I wonder why the heroine cares for the cold hearted sarcastic man. Misunderstandings abound and as soon as one is cleared up another rears its ugly head. The macho hard man without visible softness was popular some years ago then some swung the other way to the sympathetic empathic man who some considered too emotional. I think I prefer my heroes a bit more in the middle.I will continue to read Palmer's books and find and buy those I don't have but this on is not one I will want to reread.SpoilerOne part didn't make sense-- wasn't logical. The woman was in an accident and had stitches in her abdomen. They have sex before and after they finally marry and he never notices or comments on the scar on her abdomen even though the ir first sexual encounter couldn't have been long enough afterwards for a scar to have been reduced to nothing. I know surgeons do wonderful things but didn't think they had perfected scarless surgery for the injury described earlier when the incision was bothering the heroine.2 of 2 people found the following review helpful. It had potential to expand into a great story but was poorly executed in my mindBy brittany austinI really wish I had read some of the reviews before. It had potential to expand into a great story but was poorly executed in my mind. I

was frustrated and stopped reading the book multiple times because it was unorganized unrealistic and too old fashioned and rigid to be a romantic story with sex scenes. I can't stand weak heroines and this one is repeatedly putting the heroine down.. So much so I felt bad for her more than related to her. The only reason I actually finished this book was because I wanted to prove to myself how predictable the ending would be and secretly hoped it would get better and I hadn't just invested all that time into a book for nothing. I am a very easy person to please as far as romance novels go, but this book frustrated me way too much.3 of 3 people found the following review helpful. Don't waste your moneyBy MacbanditI just have to wonder is this really a Diana Palmer book! This story is so unrealistic that I have to wonder why I wasted my time with it. Bess is so a candidate for mental abuse. Ive never seen anyone who would take so much from such a jerk. The story keeps on and on written like a authors first book. This is almost enough to make me quit her books. I would have given it less than 1 star if I could have. I wish I had not wasted my money on this.
