Nothing Original Here and Other Issues With This eBookBy GeraldineNothing much new here and in places the writing is rather "wonky".Examples:in the chapter about presentation, it says:"You need to make sure that they look more than just a homemade gift." (HUH!!!) What's wrong with a homemade gift? Isn't that the point of making them???also another reference about not making gift TOO early:"It's important that you don't make your gifts too early. Though, if you're making coasters it doesn't really matter." (HUH AGAIN!!!!)I think this book must have been put together by someone who doesn't have very good English skills. That would have been easy to ignore IF the projects themselves were original and special. I didn't find any that were, in either respect.Deleted from my kindle already.2 of 2 people found the following review helpful. Don't waste your moneyBy KacmorAnother brochure with a neat idea completely messed up.Christmas gifts are about to make a recipient happy, not a giver happy, they checked off the next person from their list. You will find some good suggestions here, but the absolute majority is very, very "iffy", or "kitschy", or both. Not a single idea has detailed

instructions, the reader is sent to the internet to do the research. The writing stutters, so to say, plenty of typos, but with THAT content, I wouldn't waste good editor's time. All that for four dollars. Well, I wouldn't. Unless, of course, you want to make DIY Guides a nice Christmas gift of it. 6 of 6 people found the following review helpful. Waste of time
By STAFFMOMI am glad this was a free book. I would have been very disappointed had I paid anything for this. There were 4 ideas and only one with complete instructions.

Learn How to Make Beautiful, Simple, Memorable Christmas Presents for Friends and Family Christmas can be a time of cheer, but it's a little hard to be cheerful when you're unsure what to get people.
