But most are unidentifiable, require more than one dollar, or are not something I want my kids making (e.g. gun and holster). The illustrations are not done well and really lower the quality of the book.1 of 1 people found the following review helpful. Buyer Beware! Poor Value!By LouThis book is almost useless, unless you want to make crude, unrecognizable "animals" out of multiple dollar bills. I would have returned it, but the postage would be almost more than the book cost, and I already wasted enough on this item. I strongly suggest you chose another option. I know I am going to pick something with better, more sophisticated designs.1 of 1 people found the following review helpful. AwesomeBy Online ShopperI got this for an adult friend (a waiter), and he loves it. He told me that some are very chalenging, but some are easy, a good mix.
