The prominent "100" would suggest there might either be 100 puzzles or 100 dots in puzzles, but there are neither. There are 35 puzzles, most are very simple under 30, with just a handful going over 50. The highest count in the entire book has only 70, then there is one with 66 and just a sprinkling of other ones. My 4 year old was done with this book in no time at all, the dots are very tightly crowded with each other so there's very little challenge in finding numbers and creating the picture. Ugh. Big disappointment. 0 of 0 people found the following review helpful. Five Stars By Julie It will be enjoyed 1 of 1 people found the following review helpful. Horrible. There are only 34 dot to dot exercises ... By Lori Herzog Horrible. There are only 34 dot to dot exercises in the book, not 100. There are several typos as well (missing numbers, wrong numbers, etc.) Don't buy this!
