Nice variety of animals By mark rose Have not had a chance to make any yet but the patterns seem straight forward. 16 of 17 people found the following review helpful. Very nice. By Heather Hilburn This book is very nice, with some very good patterns. The only thing I don't like about the book is that it uses real feathers for the birds. For a book that's ecologically minded, that seems a bit ironic. For my projects I used feathers I made from a fringed 'tube' of matching fabric with pipe cleaners for the core. The animals included are: Chinese River Dolphin - A very nice and easy pattern. Spotted Owl - A decent pattern. I used the wings from the Macaw for the wings here, since this is a feather pattern. African Elephant - A GREAT pattern that I really loved. American Alligator - Another great find! I adored this one. Scarlet Macaw - Once again the use of real feathers bogs this otherwise nice pattern down. Loggerhead Turtle - I can't wait to try and make this quilted turtle. Stuffed right

he'd make a good pillow. Panda - Not the best panda I've ever since, I want to alter this pattern. Orangutan - The face here is really nice. Bald Eagle - Another feather pattern. Other than that, it's a fantastic pattern. Kangaroo Joey - Very nice. The joey seems just a hair too large, however. Wolf - Once more, a very nice pattern. I don't plan on making the Windsack, House Banner, Pillow or Quilt, but they have some nice applique designs. All in all I was very pleased with this book. Like all of Jodie Davis' work the instructions are clear, easy, and well thought out. If you plan on making animals, I recommend this book, along with Stuffed Animals and All the Trimmings. 0 of 0 people found the following review helpful. Eagle pattern By Sheila G. Yager I was looking to make an Eagle for my granddaughter. I bought the book not knowing if it would be there and one was. Looks like a great pattern. Will be making shortly.
