and Informative By Barbara C. SvetlickI am a glass sculpture artist and not a jewelry artist but the piece that Becky created with my Cherry Blossoms lured me to explore Maedeup. The book not only is beautifully photographed with a history on this technique and Korea but the instructions and projects are easy to follow and create. This technique brings such an elegant quality to a finished piece of jewelry that it has inspired my own work. The tools needed are simple and easy to find if not already in your toolbox and the Korean cording is available through Satincording with great service and fast shipping. Becky deserves kudos for bringing this technique to the jewelry world in such a beautiful book of fantastic eye candy and projects. Barbara0 of 0 people found the following review helpful. Excellent Projects! By prissycat12I was looking for jewelry designs using cording and beads. I had not tried any techniques using these jewelry elements but was really drawn to the simplistic, elegant look of the art. I originally chose "Elegant Knotted Jewelry: Techniques and Projects Using Maedeup" by Becky Maverden based on the beautifully photographed projects that she had created and the step by step directions and tips to execute the intricate knotted jewelry. However, I thoroughly enjoyed her delightful and informative commentary on each knot's name and origin and her experiences in Korea. I would recommend this book to anyone interested in knotted jewelry.
