From Kalmbach Publishing Co : Model Railroader 2018 Calendar before purchasing it in order to gage whether or not it would be worth my time, and all praised Model Railroader 2018 Calendar:

Model Railroader 2018 Calendar features 12 curated scenic layouts from the pages of Model Railroader and Great Model Railroads. Beautifully photographed to capture detail and realism, each image showcases a special layout that will inspire the model railroader throughout the year. The calendar includes photo descriptions as well as a two-page bonus spread featuring an interesting layout. Pages are printed on quality paper stock for durability and framing. Day grids include national holidays and are generously sized for writing notes.About 80 percent of U.S. households display a printed calendar at home; 90 percent of which are wall calendars the same format as Model Railroader 2018. Unlike the hundreds of railroad-themed calendar titles available in the marketplace, Scenic Layouts offers a unique theme (model railroading) curated by the some of the best model railroader experts in the country.

About the AuthorThe editors of Model Railroader magazine compiled the compelling imagery and accompanying text from recent past issues. Model Railroader is published in Waukesha, Wisconsin.
