From CreateSpace Independent Publishing Platform : Natural Liquid Soap Making... Made Simple: 25 Easy Soap Making Recipes You Can Try At Home! by Martha Stone (2014-01-27) before purchasing it in order to gage whether or not it would be worth my time, and all praised Natural Liquid Soap Making... Made Simple: 25 Easy Soap Making Recipes You Can Try At Home! by Martha Stone (2014-01-27):

1 of 1 people found the following review helpful. I'm guessing there's a better one out there.By TeeKayThis had several recipes for soap making, but I felt like the author was "talking down" to me. Some of the instructions were overly repetitive, and then other times they were unclear. For example: "1 bar of soap" - does that mean any soap you buy off a shelf? How is that going to be free of additives, etc., as the book keeps mentioning? Is a small bar of soap equal to a family size bar of soap? In another recipe, they said you use the "basic" soap recipe, but then they don't mention one of the ingredients from the basic recipe, so you don't know if you're supposed to make the basic recipe and then add all this other stuff, or if they forgot an ingredient, or what. Overall, I wasn't that impressed, since you can get the same recipes (with fewer errors) by googling it for free.0 of 0 people found the following review helpful. Really is a melt and pour soap, not a ...By Ligia CubilloReally is a melt and pour soap, not a book wuith recipes for from scratch liquid soap. A little dissappointed.4 of 4 people found the following review helpful. solid soap plus waterBy CrinnajThis is not a book on how to make soap from scratch, rather it is just grating solid soap and mixing

with water. Only as natural as the soap you buy...or hopefully make from scratch.
