**Don Metz, Catherine Tredway, Kenneth R. Tremblay, Lawrence Von Bamford : The Big Book of Small House Designs: 75 Award-Winning Plans for Your Dream House** before purchasing it in order to gage whether or not it would be worth my time, and all praised The Big Book of Small House Designs: 75 Award-Winning Plans for Your Dream House:

6 of 6 people found the following review helpful. Small ugly housesBy Nancy Painterthe houses were indeed small, but the designs were weird, monotonous and not really something I would like. However, it would appear that other people would like it13 of 14 people found the following review helpful. Not What I ExpectedBy Tammy RounsavilleI am looking at house designs and plans for my retirement. I thought this would be a great book of designs for small houses, cabins, and cottages. I was wrong. It does have designs for small houses, but they are specific to geographical areas. There weren't really any that caught my attention for what I want. Would not recommend to someone looking to build.9 of 9 people found the following review helpful. not impressedBy Dixie Finchnot enough small houses--lots of 2 story--not what I thought it was going to be was a waste of my money

75 unique designs for attractive, efficient, environmentally friendly homes. Now available in paperback, this collection of 75 plans for small homes offers more than 500 usable blueprints and other illustrations for a variety of living spaces suitable for every environment and style, from a New England farmhouse to a sophisticated townhouse in the city to a

Santa Fe ranch. The designs include site drawings, floor plans, elevation drawings, section drawings, perspective drawings, and exploded views. A brief introduction to each home describes its setting, the philosophy behind the design and its intended use, materials used, recommended landscaping, and more. Many of the homes come with money-saving and environmentally sound features such as solar panels and water heaters, wood stoves, ceiling fans, airlock entries, wind power alternatives, and natural gas heaters.

About the AuthorEditor and professional architect Don Metz is a partner in the architectural firm of Metz and Thornton. He started his career in the energy-efficient house design business in 1972 with his award-winning Winston House. He was the consultant for the book *The Underground House Book* by fellow Storey author Stu Campbell. Don also wrote *Superhouse* and edited Storey's *New Compact House Designs*, and edited *The Compact House Book*. Metz has also written two novels, *Catamount Bridge* and *King of the Mountain*. He lives with his wife in Lyme, New Hampshire.
