Modern:

This fascinating early work is a catalogue of furniture and decoration with hundreds of photographs detailing historical styles. Thoroughly recommended for the antiquarian's bookshelf. Contents Include: Part I - The Development of Decoration - Introductory; Italy; Spain; France; France: After Louis XIV; England; England: the Age of Walnut; England: The Age of Mahogany; England: The Age of Satinwood; The Nineteenth Century; Early American; The Federal Period and After; The Twentieth Century; Part II - The Elements of Decoration - Materials of Decoration; Fabrics; Wall Coverings; Floor Coverings; Decorative Objects; Color; Lighting; Windows and Window Treatment; Furniture and How to Buy It; Part III - The Principles of Decoration - Room Planning and Arrangement; Rooms; Seasonal Changes; Bibliography, and Index. Many of the earliest books, particularly those dating back to the 1900s and before, are now extremely scarce and increasingly expensive.
