Daria Bowman, Carl A. Price : The Complete Idiot's Guide to Vegetable Gardening (Complete Idiot's Guides (Lifestyle Paperback)) before purchasing it in order to gage whether or not it would be worth my time, and all praised The Complete Idiot's Guide to Vegetable Gardening (Complete Idiot's Guides (Lifestyle Paperback)):

Not enough diagramsBy Richard JonesThis is full of interesting information written in a easy to read manner. However a lot of the sections could really do with relevant diagrams. Like the description of garden designs are only textual, they would be a lot more meaningful with a simple diagram.I'm still happy with the book though.0 of 0 people found the following review helpful. complete idiots guide to vegetable gardeningBy demandingI found this book to be very encouraging for me due to the fact that I do not have a green thumb. This book

has helped me to begin a very I must say very small garden that at this moment is growing very healthy.

Reap a bountiful harvest from your own backyard!
