Ivan Bocsa, Ivan Bosca, Michael Karus : The Cultivation of Hemp: Botany, Varieties, Cultivation and Harvesting before purchasing it in order to gage whether or not it would be worth my time, and all praised The Cultivation of Hemp: Botany, Varieties, Cultivation and Harvesting:

4 of 4 people found the following review helpful. **The Cultivation of Hemp: Botany, Varieties, Cultivation and Harvesting** By D. E. Miller This is the seminal work of its kind to the farming of industrial hemp. As the long and ridiculous prohibition on growing industrial hemp in the United States comes to an end, most of our wannabe hemp farmers will need and find this information most helpful since so much about hemp farming has been lost during the ban. As more people realize the value of hemp to our farming, manufacturing and retail economies, the more they will need to know about it in order to maximize their efforts and outcomes. This is well written and easy to read; a no nonsense text crammed full of what we need to know about hemp farming and processing. Though highly recommended by VoteHemp, it is out of print. I am grateful to have found it available through a seller at for a reasonable price. 2 of 4 people found the following review helpful. 176 pages? By jffryrd 225 dollars, seems a tad pricey considering wide distribution of texts like this one sell more if offered at a more reasonable price point. The new text coming out in April is what, 100 bucks? 5 stars because I'd hate to downward skew what seems like an invaluable resource--though have yet to read. 7 of 14 people found the following review helpful. **Handy Hints** By Steven Cleary I'd just like to thank Dr Bocsa and Mr Karus for their insight into this wonderfully resourceful plant. Intelligent, thoughtful and concise, this book should put hemp back where it belongs...in our fields our shops and our homes. Keep up the good work.

The Cultivation of Hemp: Botany, Varieties, Cultivation and Harvesting Paperback - March, 1998 by Ivan Bocsa (Author), Ivan Bosca (Author), Michael Karus (Author)
