Sir Terence Conran : The Essential House Book before purchasing it in order to gage whether or not it would be worth my time, and all praised The Essential House Book:

3 of 3 people found the following review helpful. Best home book I've ever boughtBy M. HumphreysI'm a tough sell when it comes to books of this genre - I want them to be aesthetically pleasing and well designed, I want them to demonstrate good design within their content, I want them to be informative (i.e. give me information about a home that I don't already know - not just fluffy design ideas that are regurgitated over and over again) and I want them to be readable, accessible, and engaging to accommodate my ADD! This book does it all and with style. I love paging through it when I've got a few minutes to kill. I also consult it when I need specific reference info like this evening's pursuit of information on my home's electrical system.This is a great purchase for design oriented homeowners and a great housewarming gift too!0 of 0 people found the following review helpful. big beautiful essential bookBy B. SzeI have wanted this book for a while. finally decided to get a used one.. i always love looking at pictures and this has

tons of them. didn't realize that it was a bit like a how to book, with full paragraphs accompanying a lot of the images. i did think there would be more full size pictures but this way, they were able to get in a lot more images in this book than if it was one full size pic a page.0 of 0 people found the following review helpful. MONEY WELL SPENTBy Kenneth A. MorganAT THESE PRICES THIS TERENCE CONRAN WORK IS A STEAL..... CAN'T GO WRONG.... BUY IT.

In this home-design reference book for the '90s, the five main sections show the reader how to develop a personal sense of style and to carry it through to reality, whether in major structural changes or smaller design touches. There is additional advice on the best decorating and furnishing options, a checklist of maintenance tips, and an index of useful addresses including advisory bodies, architects, designers, suppliers and shops.
