Nothing useful here.1 of 1 people found the following review helpful. Great ReadBy S. R. RosenblattReally well done. Writing is engaging and pics were fabulous. It's a small book. But it was so good that it inspired me to get the author's other books. Rustic Homes is a much larger version. What i like about this smaller book is that it has a chapter for each room in the house. As I just bought a log home, it helped me with interior design.0 of 0 people found the following review helpful. ... Comfort and livability are the keys to a great living area. Feet and beverages are not out of place on the coffee tables. We invite pets to cuddle up with us on any one of the chairs or couches. Lamp shades of mica, glass, cloth or parchment sport a host of rustic scenes. Canoes hang from the ceiling, and the fireplace makes us cozy on a chilly day. The most comfortable always seem to be those that are oversized and give one the sensation of sinking into a cloud or pillow. Many rustic homes have sleeper sofas for guests who happen to show up on weekends for an extended visit
